China's Military

美中貿易

Speak the Language of Chinese Decision-Makers.

DISCOVER, the world's largest science magazine, is one of a kind—the only foreign consumer magazine to be translated into Chinese and sold at nationwide retail outlets.

Now in its second year of publication, the Chinese DISCOVER has doubled its initial circulation. Over 40,000 copies of each quarterly issue are distributed throughout the People's Republic of China.

The Chinese DISCOVER is edited for the nation's political, industrial and academic leaders. It's a unique opportunity to speak directly to an elite Chinese

audience. A black-and-white page costs \$5,000; four-color is \$8,000.

To find out more about the Chinese DISCOVER, contact Jack Lynch in New York (212) 841-2502; Ron Keown in Chicago (312) 329-6392; Bob Bagno in Detroit (313) 875-1212; Cliff Allman in Los Angeles (213) 385-8151; or Don Altman Associates in Beijing, China (telex) 221822.

Start talking the language of Chinese decision-makers—in DISCOVER.

The China Business Review

The magazine of the National Council for US–China Trade

July–August 1984

Volume 11, Number 4

Cover: Today's military is looking for Western technology, modern equipment, and—most important—bigger budgets. This issue looks at what China needs to modernize its navy, air, and ground forces. *Photograph by D.E. Cox*

Training Chinese Oilfield Workers The human side of technology transfer. *By Richard S. Ondrik* **7**

China in Space Skylabs and space shuttles are on the horizon. *By Bradley Hahn* **12**

China's Emerging Navy Once a small coastal force, China's navy is now the world's third largest. *By Bruce Swanson* **26**

Space: China's historic interest in the heavens has only recently headed into outer space. **Page 12.**

China's Air Defense The "fourth modernization" needs modern equipment and technology on a massive scale. *By Madelyn C. Ross* **31**

Marketing to the PLA US defensive weapons sales are possible next year. *By Richard E. Gillespie* **34**

Air Defense: China is seeking aviation equipment from the West, while marketing its own military equipment to less developed countries. **Page 31.**

China's Ground Forces The strategy is "defense in depth." *By Richard E. Gillespie* **36**

Defense Modernization A tight budget has forced the PLA to adopt low-cost defensive strategies. *By Christopher M. Clarke* **40**

Behind the Sino–Soviet Break Twenty years of antagonism is unlikely to end soon. *By Harold C. Hinton* **46**
