## *Announcing two new publications from The US-China Business Council*

### **CHINA'S METALS AND MINERALS: A COMPREHENSIVE GUIDE**

A gold mine of information on all aspects of China's metal and mineral resources including:

- Location and size of major reserves
- Major processing facilities
- Expansion plans and major projects offering business opportunities
- Statistical summary of production/trade trends
- Information on China's key metal and minerals production and trading organizations
- Maps, tables, graphs, charts, and more!

Available in October 1988. Council members \$140; Nonmembers \$200.

### **OPPORTUNITIES IN CHINA'S MAJOR PROJECTS: CAN AMERICAN COMPANIES COMPETE?**

This unique new study takes a fresh look at American competitiveness in China, highlighting outstanding business opportunities for American and other foreign firms. The report also:

- Describes 257 key central projects that offer sales, consulting, and investment opportunities
- Explains China's planning and approval process for major projects
- Presents a case study of how American companies have successfully won China business
- Analyzes US performance in 18 sectors including petrochemicals, transportation, infrastructure, telecommunications, power, chemicals, metal, coal, and building materials

Published in August 1988. Council members \$145; Nonmembers \$220.

*Let the US-China Business Council put  
China's Major projects  
on the map for you!*
