At BNSF Railway, we handle more of the millions of intermodal containers coming from China than any other North American railway. In fact, we transport more intermodal freight than any railroad in the world. We carry it on a vast network that serves all West Coast ports, providing direct service to all major North American markets. We keep up with increasing intermodal volumes by investing in additional capacity, including double- and triple-tracking our core routes. Through access to the industry-leading technology of BNSF.com, we also

ensure your freight is shipped as efficiently as possible. BNSF Railway's relationships with China Ministries and our new Shanghai office allow us to provide logistics solutions and facilitate trade more efficiently between the U.S. and China. So we can help strengthen the global supply chain at both ends. No wonder we're right in the middle of the action in China.
